On Friday night's broadcast I was shocked when we were told, "the combined death toll of Israelis and Palestinians is approaching 800". This implies some level of equivalence between the sides; NBC reported 810 Palestinians had been killed compared to just 13 Israelis - a ratio of 62:1! There is a massacre in Gaza and your reporters aren't allowed to see what is happening because the IDF refuses access, despite a Supreme Court ruling. You are whitewashing atrocities. Please tell the truth.
